

**CONQUBES** - We are manufacturer & supplier of **CONCRETE SOLID BLOCKS** using latest technology (*Automated Concrete Batching Plant & Hydraulic Pressing Block Machine*) that provides superior quality, strength and finishing.

The concrete solid blocks are manufactured in a wide range of **sizes & delivered all over Coimbatore District & Tiruppur District.**

- ▶ Our Blocks are stacked into bundles & strapped for fast, safe & efficient shipment.
- ▶ ConQubes has fleet of trucks ranging from 6 wheeler to 14 wheeler vehicles fitted with truck mounted crane for fast loading, unloading & placing the blocks **upto 1st floor.**

#### OUR BLOCK SIZE ( W X L X H ) | WEIGHT

4"x16"x8" | 100mm x 400mm x 200mm | 17kg  
 6"x12"x8" | 150mm x 300mm x 200mm | 19kg  
 6"x16"x8" | 150mm x 400mm x 200mm | 26kg  
 8"x12"x8" | 200mm x 300mm x 200mm | 26kg  
 8"x16"x8" | 200mm x 400mm x 200mm | 35kg  
 9"x 8"x 8" | 230mm x 200mm x 200mm | 19kg

#### ADVANTAGES OF USING CONCRETE SOLID BLOCKS

##### STRENGTH & DURABILITY :

Concrete blocks are stronger, durable, long lasting and comes with higher load - bearing capacity. Concrete blocks will have more water & weather resistant.

##### SPEED :

Concrete blocks are larger and faster to install, which can lead to quicker construction times. This can be advantageous for meeting project deadlines.

##### USAGE :

They can be used for everywhere from foundations, retaining Walls, load bearing walls, partition walls, compound walls etc. And they come in various shapes and sizes to suit for various requirements.

##### COST :

Concrete blocks are usually less expensive than Red Bricks / Fly ash Bricks / ACC Blocks. And moreover laying of Concrete blocks require less mortar than bricks, which can lead to significant cost saving.
